The message in the flyer.

Takeaways

What did they say you did well? *Do not just say it was good; be specific here.*

She said she liked the message in the flyer and the doves I used. She also liked the colors I chose for the project.

What are the suggestions given for improvement? *Do not just say it was good with nothing to improve; that's a sign you didn't get a deep enough critique.*

She suggested I use a wide range of fonts and keep equal spacing too. She also suggested I change the title into a different alignment.

The contrast from the background and the typography and visual elements being cohesive with the event. There is also simple communication about the event too. She also liked the QR code I made.

What are the suggestions given for improvement? *Do not just say it was good with nothing to improve; that's a sign you didn't get a deep enough critique.*

She suggested I improve my alignments because some of the body copies were closer to the edges. Moreover, she suggested I can add strokes to the icons I created because they were blending in with the background. Red and black didn't seem to work together so she suggested I change the stroke color.
