ABOUT ME

I am from Everettt Washington and I come from a family of 6, with me being the first born. I have passion for helping and caring for people so nursing was the best career to exhibit this trait since people need help in the hospital. I spend most of the time playing games, watching movies, or tiktok. I also like singing my favorite songs with the use of a karoeke, mostly from Youtube. I never considered to pursue or explore anything concerning communications and content creation because I never saw myself doing anything related to technology. However, taking Com 210 helped me learn a lot and I believe I gained some experience in content creation.

TABLE OF CONTENT

Project 1: WSU Promo

Title:

Why I Love WSU

Date:

September 24, 2023

Description:

This project is about Washington State university. I am creating and promoting the good things in the school which will attract people who are interested in attending. I decided to promote the school based on what the amazing things I've seen during my stay here.

Program Used:

Adobe Photoshop & Lightroom

What I learned:

This was the first project I created and the most significant thing I learned was getting familiar with the tools in Adobe. I also learned how to blend two pictures together for them to make sense.

Welcome to WSU

COUGARS

WASHINGTON STATE UNIVERSITY

Academics

Washington State university got about 431 majors and minors to choose from. This includes post graduate and undergraduate studies. Great resources to help students with great faculty!

Residency

Home away from home! Washington State university has 14 residence halls with single and double occupancy rooms. There are also nice off campus apartments available for all students.

Project 2: Infographics

Title:

Future Nurse

Date:

October 8, 2023

Description:

This infographic project is about my anticipation towards my nursing career. I am communicating to people on what to expect in becoming a nurse, and the process it also takes to become one. My target audience were people who are interested in the nursing field or anyone who might be curious about this field, whether they want to explore or just satisfy their curiosity.

Program Used:

Adobe Illustrator

What I learned:

I learned how to create icons from scratch.
I also learned how to create certain
shapes just by moving vectors.

Future Nurse

High School Graduate

The first step in becoming a nurse is to graduate from high scholl with a diploma. Many universities requires a high school transcript before getting admitted.

Pre-requisites

It is important to know the basics of nursing school before doing the practical aspect of it. Thus, taking courses such as Anatomy and Physiology with other courses according to specific institutions is a requirement.

Nursing School

Depending on the type of nursing degree, a student is required to school approximately 2-4years. In this process, students get the opportunity to study through practicals during their clinical rotations.

Taking The Nclex

To practice as a nurse, an individual must be licensed by taking the national council licensure examination also abbreviated as NCLEX.

Specialty

After graduating from nursing school and becoming a registered nurse, the next step is to decide that you desire to work in. There are specialties such as the icu,pediatrics,emergency room, and a lot more.

Reality Of Nursing

You are still a nurse even if you retire. When you want to help someone as a nurse you help them without judging their social status, identity, or religion, but all you do is to help them.

Bullies In Nursing

It has been reported in so many sources that new grad nurses are being poorly treated by the old nurses. They believe this act has seem to be causing unhappiness among most new nurses.

Project 3: Flyer

Title:

The City Needs Jesus

Date:

October 22, 2023

Description:

This project is a flyer that is promoting a Christian activity through visuals. It is telling the Christian community about an upcoming conference that anyone can attend. It includes prayers, worship, and all church activities.

Programs Used:

Adobe Photoshop, Illustrator, Lightroom & InDesign

What I learned:

This is one of the projects I really had fun creating. I learned a lot through out the process. I blended three photos together in Adobe photoshop. While creating this, I discovered a fast way to cut the photos so that the unwanted parts are separated from the part I cut. I learned how to create the two doves in illustrator too.

The Youth Ministry Presents

THE CITY
NEEDS JESUS

Motive: Worship God.

Join us in worshipping the Lord, receiving the word from the scriptures, prophetic miracles, healing, breakthroughs, and showers of blessings. Come witness the power of God and your life will never be the same.

Theme: Psalm 91 :1.

He who dwells in the secret place of the Most High, shall abide under the shadow of the Almighty

Project 4: Mini Boring Image

Title:

Creation Of Peace

Date:

September 10, 2023

Description:

In this project, I blended 4 pictures together to create a boring image. My interpretation to this project is that, the waves of the sea tends to calm me down so creating it within me is just like being at peace.

Program Used:

Adobe Photoshop

What I learned:

I learned how to blend by altering the percentage of the opacity. I also learned how to use the eraser tool to make a cut portion of the photo smooth.

Create Peace Within Yourself

Project 5: How-To Video

Title:

How To Make A Simple Smoothie.

Date:

December 3, 2023

Description:

This project is a video I created in Adobe Premiere pro that shows how to make a simple smoothie with high calories and high protein. In this project I am trying to show the process of making a smoothie with few ingredients.

Program Used:

Adobe Premiere Pro & Illustrator

What I learned:

I learned how to use certain effects such as croosfade, dissolve, and dip to black in premiere pro. I also learned how to arrange videos and audios appropriately in Adobe premiere pro. I got few tips from my critique group as well which helped me to create this video.
